Assignment 1

Alex Sacharow & Torben Klausa

September 30, 2016

Contents

1 R Markdown

This is the current working directory:[1]

```
## [1] "/home/torben/GIT/1st-Pair-Assignment"
```

```r
source("getData.R")
```

```
## Loading required package: RCurl
```

```
## Loading required package: bitops
```

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```r
summary(cars)
```
```
##      speed           dist
##  Min.   : 4.0   Min.   :  2.00
##  1st Qu.:12.0   1st Qu.: 26.00
##  Median :15.0   Median : 36.00
##  Mean   :15.4   Mean   : 42.98
##  3rd Qu.:19.0   3rd Qu.: 56.00
##  Max.   :25.0   Max.   :120.00
```

---

[1]See Acemoglu and Robinson (2000, 33–40).
2   Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.

```r
hist(weather[,2])
```

Histogram of weather[, 2]
